

Hampshire Power Corporation (“Gridwealth Electric”)

This fact sheet provides consumer information about the price, power sources and air emissions of electricity service. Electricity suppliers in Rhode Island must, by law, provide these fact sheets, or “Energy Source Disclosures” on a quarterly basis for the most recent one-year period, to educate consumers about their electricity.

Q2 2026 – Most Recent 12 Month Data Available

This information is effective for the period:

April 1, 2025 – March 31, 2026

(Note: This relates to supply only. Your local utility charges separately for delivery service.)

Service is supplied with power generated using the NEPOOL System mix of resources:

Power Sources	Resource Mix
Air-source heat pump	0.34521%
Biogas	0.00926%
Biomass	1.55767%
Coal	0.14251%
Diesel	1.74338%
Digester gas	0.10093%
Energy Storage	0.07822%
Fuel cell	0.94785%
Geothermal	0.00042%
Ground- and Water-source heat pump	0.04673%
Hydroelectric/Hydropower	4.69949%
Hydrokinetic	0.00083%
Jet	0.02104%
Landfill gas	0.35752%
Liquid biofuels	0.11846%
Municipal solid waste	0.45852%
Natural Gas	45.50751%
Nuclear	22.51334%
Oil	6.34031%
Solar Photovoltaic	8.30593%
Solar Thermal	0.00046%
Trash-to-energy	1.68975%
Wind	4.06031%
Wood	0.95434%
Total	100%

Air Emissions lbs/MWh

Carbon Dioxide	699.88773
Carbon Monoxide	1.78233
Mercury	0.00006
Nitrogen Oxides	0.57579
Particulates	0.27490
Sulphur Dioxides	0.27379
Organic Compounds	0.03519
Particulates (<10 microns)	0.24577

Power Sources: The actual electricity you use will be indistinguishable from the electricity used by your friends and neighbors. This is unavoidable because everyone is served through the same transmission and distribution system. The energy source disclosure cannot tell you about the electricity that you use in your home; instead, it tells you that your dollars are going to pay for particular power plants. Since it is impossible to track the flow of electricity on the grid, however, there is no way to identify the actual power plant that produced the electricity you consume. But it is possible to track the dollars you pay to particular power plants. Your electricity dollars will support electricity generation from various energy resources in the proportions listed on the power content label.

Notes:

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information in the NEPOOL Generation Information System.
2. You can call Gridwealth Electric at 1-877-700-6165 or the Rhode Island Public Utilities Commission at (401) 941-4500 for additional information.
